If your barn is bringing 10+ horses, please complete multiple forms. All horse entries must be current with the show office at the time this form is submitted; failure to do so may result in delays when entering the Park.

Throughout the stay, please minimize horse-to-horse contact and follow all biosecurity measures noted below. Early identification is crucial when dealing with disease outbreaks, and this requires cooperation from everyone within the community.

- Complete and record temperatures twice-daily on the provided log kept visibly posted at your barn
- Monitor horses frequently for signs of disease throughout stay
- Immediately report any horses with elevated temperatures or symptoms to Park management
- Limit horse-to-horse contact
- Limit horse-to-human-to-horse contact
- No grazing horses
- Avoid submerging the end of water hoses in water buckets
- All dogs at the Paso Robles Horse Park facility must be kept on a leash and should have no contact with horses
- Avoid sharing of equipment including tack, buckets and brushes; if equipment is to be shared it must be thoroughly scrubbed between horses
- Horses should have labeled dedicated water and grain buckets to avoid exchanging of this equipment amongst horses
- Do not allow horses to drink directly from water hose

Please initial to confirm or answer the following questions for EVERY horse noted in the above list. Seven days prior to arrival for Rosé In May, May 26-29

- #1 _____ I confirm each horse has current vaccines for influenza and EHV. Please see below for required vaccine format and submission details.
- #2 _____ I confirm each horse above will have temperatures monitored twice daily for the seven (7) days prior to arrival at the Park. If a temperature above 101.5 degrees F is detected, that horse will not be brought to the Paso Robles Horse Park.
- #3 _____ I confirm each horse has been in good health and had no signs of respiratory distress or neurological symptoms in the seven (7) days prior to arrival at the Park.
- #4 _____ I confirm each horse is not coming from another horse show facility or multi-trainer training facility located in the high risk counties of Riverside County, Orange County, Santa Clara County, San Mateo County as identified by CDFA as of March 13, 2022.

If you cannot confirm item #4, email adief@pasorobleshorsepark.com or call 805-369-1338 immediately to discuss the specifics details of your exposure risk.

- #5 _____ I confirm none of the horses have attended Desert International Horse Park, Murieta Equestrian Center or Los Angeles Equestrian Center, or been at a facility with a confirmed positive EHV-1 case since February 7, 2022.

If you cannot confirm item #5, please complete the following section aligned with the USEF return to competition guidelines and submit documentation related to this activity with this form.

_____ *Two samples were taken using nasopharyngeal swabs and must be analyzed by PCR testing on day 7 and day 14. Day 0 is considered to be the day your horse left the facility with an exposure. Both swabs must result in negative test results to EHV-1.*

-or-

_____ *The horses were isolated for 21 days, rectal temperatures were taken and recorded during the isolation period, and samples must be taken after day 21 using a nasopharyngeal swab to test for EHV-1 via PCR analysis. Day 0 is considered to be the day your horse left the facility with an exposure. The swab must result in a negative PCR test result to EHV-1.*

-or-

_____ *The horses were isolated for a minimum of 28 days with no signs of respiratory distress or neurological symptoms. Day 0 is considered to be the day your horse left the facility with an exposure.*

All of the above noted horses entering the Paso Robles Horse Park are currently healthy and have not displayed a temperature of over 101.5 degrees F in the seven (7) days prior to entering the Paso Robles Horse Park. Additionally, these horses' temperatures have been monitored twice daily for seven (7) days and a [Temperature Log](#) will be provided to Park management at the time of arrival. Throughout showing at the Paso Robles Horse Park all horses' temperatures and overall health will continue to be monitored.

All vaccine records must be submitted on veterinary letterhead and signed by a licensed veterinarian or organized using the [USEF Vaccination Form](#). Submitted information must clearly indicate each horse attending the show by show name and the dates vaccines were administered. Please note that to be current and active, the EVH-1 vaccine must have been received within the following dates 11/24/2021-5/12/2022.

At any time throughout this show horses are subject to examination by Park designated representatives and/or State Animal Health officials. If after such examination it is believed the health condition of a horse will place other animals at risk, the horse and others that have been infected/exposed may be isolated in the designated on-site isolation locations, or, if necessary, require removal of the animal from the facility.

I take full responsibility to report immediately a temperature above 101.5 degrees F or any signs of respiratory distress or neurological disease to the Park management by texting or calling 805-369-1338. The on-call veterinarian is Dr. David Bogenrief, DVM 805-441-2435.

In recognition of the potential exposure risk attending any competition poses, and in an effort to support minimizing the risk to horses at home facilities and those that are onsite at the Paso Robles Horse Park, we are asking every barn to identify their quarantine arrangements should there be an exposure during the competitions held at the Paso Robles Horse Park. Please complete the information below; if you do not have access to a place to complete an isolation if there is an exposure, please reach out to us immediately at adief@pasorobleshorsepark.com and 805-369-1338.

Quarantine facility and address: _____

Estimate timeframe needed to depart the Park (please circle one):

Less than 24 hours

24-48 hours

More than 48 hours

Provide additional information related to your quarantine plan: _____

Completing this form with any false information will result in immediate removal from the Paso Robles Horse Park grounds and a \$5,000 fine for each horse that has falsified records.

We are incredibly grateful to all of the trainers, riders, owners, grooms, braiders, show staff and everyone that makes up the team coming together to keep our horses safe as we return to competition. Thank you for the role you play in this effort.
